

PRINCIPAL'S MESSAGE

“Education is the movement from darkness to light.”

- Allen Bloom

Being an educational institution we are the torch bearer of this movement. Kendriya Vidyalaya, Kohima is committed in imparting quality education and to inculcate human values among the students. We believe that the innate powers and ability of a child can be recognized and nurtured through the adequate amount of exposure, opportunity and appreciation. We promise to provide all the prospects to them as we consider ourselves a student friendly unit of Kendriya Vidyalaya Sangathan.

Malala Yusufzai quoted somewhere that “one child, one teacher, one pen and one book can change the world” and we feel ourselves deeply associated with the aforesaid quote as we assure inclusive education for all the children in our institution.

We would like to reassure all the parents that we shall keep no stone unturned to come up to their expectations.

Thank you.
